

## Fundraising Frequently Asked Questions

Below are answers to some of the **frequently asked questions** people ask 105.1 LifeFM when thinking about supporting this Christian community radio station.

### How we use your donations

#### Why do you ask for money?

As a non-profit organisation with no government funding or parent company support, we rely heavily on the support of those who listen and love us the most – YOU, our listeners!

Because 105.1 LifeFM is a listener-supported, not-for-profit radio station it relies on the financial support of its listeners every day. It is a condition of our community broadcasting licence that we fundraise to demonstrate we have the backing of our 'community of interest'.

Also by government design, we are limited to five minutes of sponsorship advertising per hour thus limiting our financial capacity significantly. The only way to provide our current level of service and see such impact in the Greater City of Bendigo is to conduct fundraising appeals.

#### How do you spend the money people donate?

Donations support the daily operations including mission activity of the radio station including fees and licensing, transmission, programming and production, rent and utilities, and administration. A small amount of funds are also allocated to provide for necessary updates and maintenance of equipment.

### How safe is online giving?

#### Are online donations on the 105.1 LifeFM website safe?

You can donate online with confidence. We have multiple security measures in place to ensure that the information you enter into your donations is secure. We have installed an SSL certificate which encrypts all data sent to and from this website (click on the green padlock in the website URL for more information) and also use payment gateways that are verified PCI Compliant. The PCI Security Standards Council is a global forum for the ongoing development, enhancement, storage, dissemination and implementation of security standards for account data protection.
